1 Coronavirus: Know the Facts

The 2019 Novel Coronavirus (2019-nCoV) outbreak, which started in China in December 2019, has spread to 28 countries around the world. As at 23 February, globally 79,930 people have been infected with the virus and 2,461 people have died (<https://cnn.it/2v6YTlk>).

To date, there have been no confirmed cases of coronavirus in Namibia. However, it is important to know the facts in order to prevent panic and protect your health.

What is coronavirus?

Coronaviruses (CoV) are a large family of viruses that cause illness ranging from the common cold to more severe diseases. The 2019 Novel Coronavirus (2019-nCoV) is a new strain of coronavirus.

SYMPTOMS OF 2019-NCOV

Coronavirus 2019-nCoV causes mild to severe respiratory illness, with symptoms including:

COUGH

FEVER

SHORTNESS OF
BREATH

HEADACHE

CONFUSION

SORE THROAT

Symptoms can appear 2 to 14 days after exposure, and in some patients, are serious enough to require hospitalisation.

In more severe cases, 2019-nCoV infection can cause pneumonia, Severe Acute Respiratory Syndrome (SARS), kidney failure and death.

HOW 2019-NCOV IS TRANSMITTED

COUGHING

Coronavirus 2019-nCoV was initially transmitted from animals to people.

However, the current rapid spread of the virus is due to person-to-person transmission via droplet infection:

SNEEZING

REDUCE YOUR RISK OF 2019-NCOV INFECTION

Wash your hands with soap and water or alcohol-based hand rub often

Avoid touching your eyes, mouth and nose

Cover your nose and mouth with a tissue or flexed elbow when coughing or sneezing

Avoid close contact with anyone with cold or flu-like symptoms

Thoroughly cook meat and eggs

Avoid travel if you have cold or flu-like symptoms

Nammed has you covered

If you have a fever, cough and difficulty breathing, seek medical attention to rule out 2019-nCoV infection, especially if you have recently travelled abroad.

NAMMED OFFERS COMPREHENSIVE COVER:

- Doctor's consultations (GPs and specialists, out of hospital) – Available on all Options, except Trauma

- Pathology services (out of hospital)
- Available on all Options, except Trauma
